A compn. contains (1) .gtoreq. 1 compd. selected from the group consisti				
of propiconazole, tebuconazole, cyproconazole, hexaconazole,				
epoxyconazole, ipconazole, metconazole, and prochloraz, and (2) another				
compd. selected from the group consisting of 2-pyridinethiole 1-oxide Na				
salt, Zn salt, or Cu salt, 2,3,5,6-tetrachloro-4-(methylsulfonyl)pyridin				
The mixts. of these compns. are useful in paint, coating ,				
plastic, textile and lumber industries.				
- industry synergistic antimicrobial compn				
- Antimicrobial agents				
Textiles				
Wood				
( industrial antimicrobial compn. contg. mixed active agents)				
- Plastics, uses				
RL: NUU (Other use, unclassified); USES (Uses)				
( industrial antimicrobial compn. contg. mixed active agents)				
- Coating materials				
( industrial antimicrobial compn. contg. mixed active agents				
as)				
- 2682-20-4 13108-52-6, 2,3,5,6-Tetrachloro-4-(methylsulfonyl)pyridine
